PROFESSIONAL SUMMARY

Associate Quality Analyst with over 7 years of hands-on experience in Quality Assurance, including manual testing, 2+ years in test automation using Selenium WebDriver, and 1 year of API testing expertise using Postman. Demonstrates strong leadership skills through mentoring junior testers and leading QA efforts for complex projects in Agile environments. Skilled in creating and maintaining automation frameworks, developing test scripts, and performing comprehensive testing to ensure software quality across SDLC/STLC. Proficient in collaborating with cross-functional teams and interacting with clients to deliver customized software solutions.

WORK EXPERIENCE

General Data PVT. LTD. • Mumbai, Maharashtra • 07/2017 - Present

Associate Quality Analyst • Full-time

- Led the Quality Assurance efforts for multiple projects, including test planning, execution, and reporting, resulting in a 25% reduction in issue turnaround time.
- Performed automated testing using Selenium WebDriver, covering 50% of regression test cases, and integrated automation tests with Jenkins for continuous testing.
- Conducted API testing using Postman, ensuring data integrity and proper communication between frontend and backend systems.
- Mentored a team of 2 junior testers, improving the team's testing efficiency by 30%.
- Collaborated with developers and business analysts to design comprehensive test plans based on client requirements, ensuring full coverage of functional areas.

Test & Support Executive • Full-time

- Assisted in creating and executing manual test cases for web and mobile applications, ensuring coverage of all functional areas.
- Logged and tracked defects using Mantis bug tracker, working closely with developers for timely resolution.

SoftR Infotech • Pune, Maharashtra • 10/2015 - 04/2017

Software Testing Engineer (Internship)

- Developed and executed manual test cases, identifying and reporting defects in the application.
- Conducted cross-browser testing to ensure website compatibility across different browsers (Chrome, Firefox, Safari).

B.E. (Information Technology)

Savitribai Phule Pune University • Pune, Maharashtra

CERTIFICATIONS

Diploma in Software Testing • 01/2015 - 01/2015

Seed Infotech, Pune

Core JAVA, Advanced JAVA, Struts Framework, SQL • 01/2015 - 01/2015

Seed Infotech, Pune

PROJECTS

Zento Expense Management Application

Peak Pacific

Project Overview:

Worked on a web-based software solutions platform that provides various software services to clients.

Responsibilities:

- Developed and executed test cases for functional, usability, and performance testing based on requirements.
- Performed cross-browser testing to ensure website compatibility on different browsers (Chrome, Firefox, Safari, etc.).
- Conducted regression testing to identify and fix defects in various builds.
- Collaborated with developers to reproduce issues and verify bug fixes.

Liquidz

Project Overview:

Contributed to the testing of an alcohol e-commerce platform that allows users to browse, purchase, and review various alcoholic beverages. The platform included features such as user authentication, payment integration, search filters, and age verification for legal compliance.

Responsibilities:

- Developed and executed manual test cases for various features, including user registration, product search, checkout process, and payment gateway.
- Performed functional, usability, and compatibility testing across different browsers and devices.
- Participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives, to ensure alignment with development teams.
- Collaborated with developers to identify, report, and verify bugs using Mentis

Embark Perfumes

Project Overview:

Worked on an eCommerce platform specializing in perfumes, where users could browse, filter, and purchase a wide range of fragrances. The site included features like user authentication, product search, shopping cart, payment gateway integration, and order tracking.

Responsibilities:

- Conducted manual and automated testing for the website's various functionalities, including product search, user authentication, and checkout process.
- Designed and executed test cases for functional, regression, and usability testing, identifying and logging defects.
- Performed cross-browser testing to verify compatibility across different browsers and devices.
- Assisted in creating detailed test reports and documentation for future reference.

Website Optimization Project

- Collaborated with SEO team to analyze user interaction issues on e-commerce website.
- Identified navigation issues using Heatmaps and User Session Recordings.
- Implemented solutions, resulting in 25% improvement in website engagement.

VOLUNTEERING & LEADERSHIP

General Data PVT LTD

Team Mentor – Testing Team

- Mentored a team of junior testers by leading knowledge-sharing sessions and conducting training on testing best practices, including manual and automated testing techniques.
- Facilitated continuous learning and professional development, resulting in a 30% improvement in team performance and more efficient testing processes.
- Introduced new tools and testing strategies, enhancing the team's capabilities in cross-browser and API testing.

Project Leadership – Zento Project

- Led QA efforts for the customization of Zento software for various clients, managing communication with stakeholders and coordinating activities across cross-functional teams to ensure timely and successful delivery.
- Implemented Agile practices and improved test management strategies, leading to a 25% reduction in issue turnaround time and higher client satisfaction.
- Automated key testing scenarios using Selenium and Appium, boosting test efficiency by 30% and ensuring seamless functionality across web and mobile platforms.

SKILLS

Testing Types:

- API Testing
- Automation Testing
- Cross-Browser Testing
- Functional Testing
- Manual Testing
- Mobile Testing
- Regression Testing
- SEO Testing
- Smoke Testing
- UI Testing
- Usability Testing

Tools and Technologies:

- Appium
- Extent Reports
- GitHub
- Jenkins
- Mantis (bug tracking)
- Microsoft Clarity
- Newman
- Postman
- Selenium
- TestNG

Languages:

- C
- Java
- JavaScript
- SQL

Test Management:

- Bug Tracking & Reporting
- Test Case Design & Execution
- Test Planning & Strategy
