PROFESSIONAL SUMMARY

Versatile and skilled Software Tester with over 7 years of experience in manual testing, automation testing, and API testing. I excel in identifying and resolving software defects, ensuring robust, reliable, and high-performing software products. With a deep understanding of software development life cycles (SDLC), I am proficient in creating and executing detailed test plans, scripts, and cases. I have hands-on experience with various testing tools and frameworks, allowing me to efficiently manage automated test environments. A strong team player, I collaborate effectively with developers, product managers, and other stakeholders to deliver software solutions that meet and exceed client requirements. Dedicated to continuous improvement and innovation, I stay updated on the latest industry trends to ensure the delivery of cutting-edge testing solutions.

WORK EXPERIENCE

General Data PVT. LTD. • Mumbai, Maharashtra • 07/2017 - Present

Associate Quality Analyst

- Led the QA efforts for multiple projects, managing test planning, execution, and reporting.
- Performed API testing using Postman.
- Mentored junior testers, providing training on testing best practices and tools.
- Collaborated with developers and business analysts to understand requirements and design comprehensive test plans.
- Automated test scripts using Selenium WebDriver and integrated with Jenkins for continuous testing.

Test & Support Executive

- Assisted in creating and executing manual test cases, ensuring coverage of all functional areas.
- Logged and tracked defects in Mantis bug tracker.
- Conducted user acceptance testing (UAT) alongside clients, ensuring their requirements were met.

SoftR Infotech • Pune, Maharashtra • 10/2015 - 04/2017

Software Testing Engineer (Internship)

- Developed and executed manual and automated test cases for web and mobile applications.
- Collaborated with developers and business analysts to understand requirements and design comprehensive test plans.

Diploma in Software Testing • 01/2015 - 01/2015

Seed Infotech, Pune

PROJECTS

Zento

Led the testing efforts for a large-scale e-commerce platform, ensuring the smooth operation of user interactions and overall Application performance for both web and Android. Developed over 100 automated test cases using Selenium WebDriver, which reduced manual testing efforts by 60%. Conducted extensive regression testing during each sprint, ensuring new features did not introduce defects. Performed API testing with Postman, leading to a 30% decrease in overall issues. Communicated with developers and business analysts to resolve over 150 critical defects before production, improving user satisfaction by 20%.

Peak Pacific

Spearheaded the testing process for a business transformation organization website that provides technology-enabled learning solutions and services to enhance data-driven performance for clients globally. Created and executed detailed test plans covering functionality, responsiveness, and SEO compliance, ensuring the redesigned site met all business requirements. Led user acceptance testing (UAT) sessions with key stakeholders, collecting feedback and ensuring the final product met or exceeded expectations.

Liquidz

Led the testing efforts for an e-commerce website designed to handle high traffic and secure transactions. Conducted comprehensive functional, regression, and performance testing across multiple browsers (Chrome, Firefox, Safari) to ensure consistent user experience. Created and executed detailed test plans covering functionality, responsiveness, and SEO compliance, ensuring the redesigned site met all business requirements.

OkSir

Managed the end-to-end testing of a mobile application, focusing on security, usability, and performance. Designed and executed comprehensive test plans covering the application's functionality, security, and performance aspects. Automated the testing of mobile app features using Appium, resulting in a 40% increase in test coverage.

SKILLS

- Automated Testing
- Manual Testing
- Test Planning & Strategy
- Regression & Smoke Testing
- Test Case Design & Execution
- Selenium
- Jenkins
- TestNG
- Bug Tracking & Reporting
- API Testing
- Postman
- Java
- C
- SQL
- HTML
- JavaScript
