PROFESSIONAL SUMMARY

Quality Assurance Specialist | 7+ Years of Experience
Skilled in manual and automation testing with over 3 years of hands-on experience in test automation using Selenium, Java, and TestNG across web, mobile, and Smart TV platforms in diverse domains. Proficient in tools and technologies such as Appium, Postman, MongoDB, and TestNG. Experienced in developing robust automation frameworks, performing API testing, and conducting backend validation. A collaborative team player with Agile methodology expertise, mentoring experience, and a strong track record of delivering high-quality releases. Currently seeking a QA Lead role to leverage technical skills and leadership capabilities.

SKILLS SUMMARY

Testing Types: Manual Testing, Automation Testing, API Testing, Mobile Testing, Smart TV App Testing, Cross-Browser Testing, Functional Testing, Usability Testing, Regression Testing, Smoke Testing & Sanity Testing

Tools and Technologies: Selenium, Appium, Jenkins, Postman, TestNG, GitHub, MongoDB, ClickUp, Smart TV App Automation (Personal Project – Android TV, Fire TV using Appium)

Languages: Java, SQL, JavaScript

Test Management: Test Planning & Strategy, Test Case Design & Execution, Bug Tracking & Reporting

WORK EXPERIENCE

Quality Assurance - Tester | Fortune4 technologies   **January 2025 - Present**
(Client: HT Media – OTTPlay)
Responsible for end-to-end testing of the OTTPlay app across Smart TV platforms (Samsung, LG, Android TV, Fire TV, Apple TV).

- Collaborated with developers and product teams in **Agile sprint cycles**, ensuring a **30% reduction in defect turnaround time**.
- Managed and tracked **test cases, defects, and tasks** using ClickUp, improving overall team efficiency by **25%**.
- Participated in **daily stand-ups, sprint plann ing, and retrospective meetings**, contributing to **20% faster sprint deliveries**.
- Ensured timely feedback during sprint cycles, helping to **reduce production bugs by 40%**.

Associate Quality Analyst | General Data Pvt Ltd   **July 2017-January 2025**

- Led the Quality Assurance efforts for multiple projects, including test planning, execution, and reporting, resulting in a 25% reduction in issue turnaround time.
- Conducted API testing using Postman, ensuring data integrity and proper communication between frontend and backend systems.
- Mentored a team of 2 junior testers, improving the team's testing efficiency by 30%
- Collaborated with developers and business analysts to design comprehensive test plans based on client requirements, ensuring full coverage of functional areas
- Automated test scripts using Selenium WebDriver and integrated with Jenkins for continuous testing
- Contributed user-focused feedback to enhance product quality

KEY PROJECTS

OTTPlay | HTMedia   **January 2025 - Present**

Project Overview: OTTPlay is a **multi-platform OTT streaming application** that delivers curated content across diverse genres and languages. Designed for **Smart TV platforms**, including **Samsung (Tizen), LG (WebOS), Android TV, Fire TV, and Apple TV**, the app ensures seamless cross-device accessibility.

Responsibilities:

Led QA efforts for a Smart TV OTT platform supporting five major operating systems, ensuring seamless functionality across devices. Focused on improving **release quality** and **test coverage** through structured Agile testing cycles.

- Performed functional, regression, UI/UX, smoke, sanity, and compatibility testing, ensuring **consistent user experience** across all platforms.
- Verified backend event tracking in MongoDB, improving **analytics accuracy by 15%** for better user behavior insights.
- Optimized regression testing time by **30%**, allowing **faster sprint-based product updates**.
- Managed **test planning and execution using ClickUp**, contributing to **a 20% efficiency improvement in sprint workflows**.
- Collaborated closely with **development, design, and product teams in Agile cycles**, reducing defect turnaround time by **25%**.

Zento | GDPL   July 2017- August 2021

Project Overview: Led the QA efforts for Zento, an expense management application that supports both web and mobile platforms, enabling users to track expenses, create budgets, and generate financial reports.

Responsibilities:

- Led a team of junior testers, providing guidance on testing practices and ensuring the delivery of high-quality results.

- Interacted with clients to understand customization requirements and translate them into detailed test plans and test cases.

- Automated test scenarios using Selenium for the web application and Appium for the mobile app, ensuring robust test coverage across different platforms.

- Coordinated with cross-functional teams to prioritize testing activities and manage timelines for multiple client-specific customizations.

- Logged defects and collaborated with developers to ensure prompt resolution, leading to a 25% reduction in issue turnaround time
